School after renovation

The basic values of Aizkraukle Vocational Secondary School

- **A** – atsaucība (*responsiveness*)

- **P** - profesionalitāte (*professionality*)

- **V** – vienotība (*unity*)

Our vision -

- Our school is appropriate according European requirements - a modern, well-equipped educational institution, staffed by professional and creative teachers. School aims to become one of the 10 best professional Latvian educational institutions which prepare the necessary labor market specialists.
- *Our mission-*
- To prepare for the labor market competitive, qualified and motivated professionals who continue lifelong learning.

The main courses of development:

- School vocational education programs implemented **by updating the labor market requirements.**
- New educational program planning, development and implementation of cooperation **with the social partners.**
- Material and technical base and the methodical development of the school's image promotion with the aim of bringing vocational education among young people.
- Vocational education quality improvement.
